# The Search for John Diaper *Programme*

28th February 2007

### The Search for John Diaper

This evening's entertainment falls into 2 halves. The first part of the evening is a dramatic presentation of some of the key events relating to the maiden voyage of the *Titanic* and its aftermath. This focuses on the effects on the local crew, rather than on the fate of the passengers and is drawn from oral and written testimony of the people themselves. Some of the incidents and memories have for dramatic purposes been combined into single characters.

The second half of the programme, (following a short interval when tea & coffee will be available), will look more particularly into the story of John Diaper, fireman on the *Titanic* and the search to identify this individual as part of the Diaper Heritage Project.

### Part One

'The Ship *Titanic*' presented by the Sarah Siddons Fan Club
